ENGINEERING SHINES THROUGH

ABOUT US

We are one of the prominent Govt. approved 'A' Class contractor engaged in providing services for **engineering, installation, testing and commissioning of electrical projects**. Our services are effective and executed as per the requirement of our clients. Our organization also has **11 KV *A* Class Electrical Contractor license** from the Government of Haryana and NCT Delhi. Moreover, we undertake turnkey basic, electrical and illumination contracts of HT / LT equipment.

We ourselves are **Manufacturers of Electrical Equipments like Distribution Boards, On Load Changeover Switches, MCBs, Canopies for Busbar Trunking system.**

We are also renowned distributors and stockiest for some of the leading brands of the country. Moreover, our organization has tied up as authorized partners through its associate concern with renowned switchgear, control gear and automation product manufacturers. The company is one of the leading source points for procurements for timely deliveries.

MISSION

- Build the best product.
- Use business to inspire and innovate new technologies.
- To create a world class working environment for the employees of our company.
- To save the interest of the society and nature by reducing carbon emissions.

VISION

- Our vision is to be world's most reputed firm and to be customer centric to fulfill all its need by giving best quality products.

INFRASTRUCTURE

Stable business infrastructure ensures the proper coordination of all human resources, processes and other operational tools necessary to ensure manageable, profitable growth. This is especially important during unexpected growth spurts.

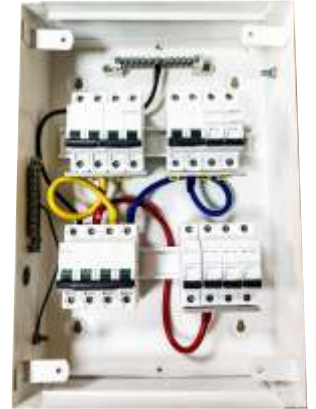

A company has to maintain it because without proper machinery and tools, the production comes to a halt. We have installed best in class machines for manufacturing procedures from the world renowned brands of latest technologies.

- CNC Turret Punch Press from AMADA(AE2510NT)
- HACO Shearing Machine
- HACO Bending Machine
- MIG and Arc Welding Equipments
- Well equipped Powder Coating Process

SPECIFICATIONS :

Rotary Type Switches
 IEC 60947-3
 AC-23A | U_e 415V a.c.
 UI 1000V | I_{sc}=80KA rms
 50Hz | 4 Pole

PCC & MCC PANELS

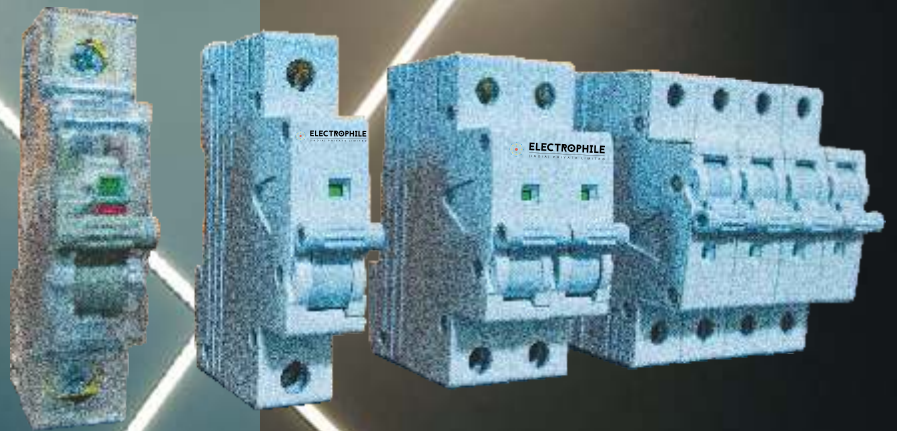

SALIENT FEATURES :

- Design tested at CPRI for short circuit & temperature rise as per IS/IEC standards.
- Computer Aided Design systems
- Panel enclosure degree of protection IP-54, IP-55 & IP65
- Anti corrosion Treatment.
- Non hygroscopic SMC busbar supports for best mechanical & electrical strengths for fault current withstand.
- Busbars and interlinks are insulated with heat shrinkable PVC sleeves.
- Provision for future expansion for both sides
- All lives parts are shrouded with polycarbonate sheets.
